To Whom It May Concern:

This letter is regarding Docket #98P-1194. I would like to express my support for the Center

for Food Safety's lawsuit calling for the reversal of approval of rBGH and have it taken off the

market. I believe human health concerns should take first priority and there appears to be many

health concerns pending regarding the use of this hormone. I personally will drive out of my

way to buy organic milk because I choose not to feed my children milk with rBGH. It appears

from the growing sales of organic milk that many people feel the same. We want healthy milk

from healthy cows for healthy children.

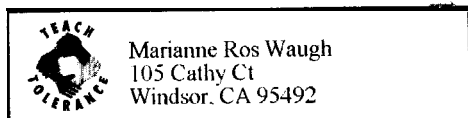

Thank you.
